

A/ ASSIGNMENT RECAP

- Introduce the process of textile creation, exploration, and application of textile technologies into a garment.
- Apply a minimum of two textile technologies learned from weeks one to six to a half-scale garment (patterns supplied).
- Aim for a new and revolutionary visual language while maintaining strong links to sustainability.
- Highlight the diversity of textile technology, sustainability, and its application to a garment (half scale).
- Identify and justify why this textile technology is the most suitable for the garment.

Suggested structure:

I. Research and sampling of textiles

II. Artist's statement (optional)

III. Working process

IV. Final garment

V. Sustainability
